The Spirit of CLINTON HILL

THE greatest achievement any community can score is the creation of a civic spirit in the hearts and minds of its people. This has been accomplished on what we have come to know, familiarly, as Clinton Hill. There is a spirit in the south section non-existent in Newark as a whole—something, the lack of which has been lamented by Newarkers these many years, but which, it is hoped, will be awakened and perpetuated by the great Celebration planned for 1916.

And this civic spirit, created and nurtured by Newark's chief civic association, is best expressed by the activities of our organization.

The Clinton Hill Improvement Association is, by right, and quite patriotically, for Clinton Hill first, but it is for the whole city as well. It is not a narrow, selfish body. It has breadth of view. Its active workers labor not only for their own home, or street or ward, but for the community as a whole.

The Clinton Hill Association best perpetuates the work begun in the little town meetings held here 250 years ago. We honor our forefathers in civic work by interesting ourselves in the care and uplift of the city they founded for us and making it a city of which all can be proud. The work we are doing is the work they bequeathed to us—and, truly, it is a labor of love. It is a work every citizen should not only commend but take an active interest in. There should be no drones on Clinton Hill. There should be no citizen whose name does not appear on the membership roll of this organization for civic betterment—an honor roll that Newarkers, 250 years from now, will point to with pride and will, maybe, be engraved on imperishable tablets, even as we have honored those that preceded us.

ON THIS SITE
THE FIRST TOWN MEETING HOUSE

"TO BUILD A MEETING HOUSE AS SOON AS MAY BE—

WHICH WILL MAKE IT THIRTY SIX FOOT SQUARE

SEVEN YEARS LATER TWO FLANKERS

CLINTON HILL SCHOOLS

Proud as we are of our churches and our homes, we are just as proud of our magnificent schools and the faculty directing their activities. Especially do we point with pride to South Side High School, a marvel of architectural beauty and a monument to the energy and ambition of the Clinton Hill Association.

In no other direction have the activities of the Clinton Hill Association resulted in more positive, concrete benefit to the community than in the battles for larger, better schools.

CLINTON HILL PARKS

Lincoln Park is the most beautiful of the interior city parks and we are fortunate in having it at the gateway to Clinton Hill. The new memorial building will face this splendid park, giving it a fine perspective.

Weequahic Park has been adopted by Clinton Hill as its own playground. Here we row, motor, fish and skate on its beautiful lake. Here we indulge in golf, tennis, football and baseball. Here we see thrilling horse racing on the half-mile track. Here the athletic events incident to the city's 250th Anniversary Celebration will be held. Here, too, will be staged the gorgeous historical pageant. Weequahic is magnificent—it is delightful—affording pleasure and recreation for the multitude.

We thank the Essex County Park Commission for it. West Side Park is one of the most beautiful of the smaller parks. It is a haven of rest and recreation for thousands.

Clinton Hill Churches

It was only natural that, having become the "Queen of Residential Sections of Newark," Clinton Hill should attract great churches. We are a great church-going community, as will be seen, we are not narrow in our religious views but embrace all the prominent denominations, so that we have wide choice.

Clinton Hill welcomed the coming of the churches and their powerful influence for good. We encouraged the various missions that have since grown to big churches with magnificent places of worship—and the Clinton Hill Association knows what it could to protect them from the encroachment of undesirable influences and environment.

End Your Heating Troubles

with

A "MARVEL" Temperature Regulator

The "Marvel" automatic controls the dampers so the heater supplies just enough heat at all times to make the home healthful and comfortable regardless of changing conditions out-of-doors, the "Marvel" ensures a uniform temperature inside. Not only does it maintain any desired degree, but it prolongs the life of the heating apparatus, ends all attention to regulation of temperature, away with fire danger from overheated furnace or steam pipes and reduces the average fuel bill one-quarter. It also opens drafts, unassisted, early in the morning before arising time, so

is possible to dress and breakfast in warm, cozy rooms. The fuel-saving effects an annual dividend of from 30% to 50% on the investment, with many comforts and conveniences included. Send for descriptive booklet.
